Accordingly, affirmative steps must be taken to assure that small and minority/women businesses are utilized when possible as sources of supplies, equipment, construction and services. Affirmative steps shall include the following:

1. Including qualified small and minority/women businesses on solicitation lists.
2. Assuring that small and minority/women businesses are solicited whenever they are potential sources.
3. When economically feasible, dividing total requirements into smaller tasks or quantities so as to permit maximum small and minority/women business participation.
4. Using the services and assistance of the Small Business Administration, the Office of Minority Business Enterprise of the Department of Commerce and the Community Services Administration as required.
5. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority business, and women's business enterprises.
6. If any subcontracts are to be let, requiring the prime contractor to take affirmative steps in 1 through 5 above.

Grantees shall take similar appropriate affirmative action in support of women's business enterprises.

Grantees are encouraged to procure goods and services from labor surplus areas.

Grantor agencies may impose additional regulations and requirements in the foregoing areas only to the extent specifically mandated by statute or presidential direction.
